

Ackcezione' Technologies Pvt. Ltd.

Technology for Life

The word Ackcezione' is coined from the basic Italian word Accezion, meaning Mind (positive), Acceptance and Intelligence with Speed. We have incorporated alphabet "K" in such a fashion that it doesn't affect its pronunciation. Similarly, we want to make our presence felt in the Clients Business World without disturbing their original identity. Plus, as we are in an e-World, to embrace the scope of the industry this "apostrophe" is added, just as e'Governance, e'Learning, e'Commerce and so on. We also mean fastest and effective solutions, as at Ackcezione', Time is the most prestigious element !
